AFSCF ICD 21 JAN 1981

1. PURPOSE. Advise of plans for AFSCF to deliver the first signed Space Interface Control Drawing to ADCOM/J3, and for J3 to transfer the ICD to J3 for implementation. Scheduled events for 22 Jan 81 are as follows:

2. BACKGROUND. Space interfaces with space system owners/operators are described by Memoranda of Agreement at the management level and by Interface Control Drawings at the implementation level. The MOA covering the Air Force Satellite Control Facility was approved by AFSCF and by Space Division/CV in March 1980. The ICD between AFSCF and AFSCF was approved by A/J3P in October 1980, and by the AFSCF on 11 Jan 81. This is the first ICD to be approved by all necessary signatories, and is a major milestone in the SPADOC activation. It is especially important because of the critical role of the AFSCF in the operation of US military space systems and the commitment to a close working relationship between the SD Deputy Commander for Space Operations and ADCOM. ICDs are negotiated by A/J3 (JSJS) and, after approval, transferred to A/J3 for implementation by the SPADOC (JSJS).

3. RECOMMENDED "CEREMONY." Col Haber, AFSCF Deputy for Vehicle Operations (VO), will be here on 22 Jan 81 to present a briefing on survivability (0930-1030, 22 Jan). He will carry the signed ICD for presentation to the Command. Fifteen (15) minutes have been scheduled prior to the briefing for a formal "ceremony" marking the event (0915-0930). A recommended agenda is attached, which includes remarks by Col Haber, the presentation to J3, remarks by Gen Mindeman, the transfer to J3, and remarks by Gen Brandt.

Proposed Agenda

Lt Col Dickman/njd/3007/20 Jan 81

ACTIVITY 1.2 PRESENTATION OF  
SPADOC/APSCF ICD

1. Introductions, stage setting Lt Col Dietman
  2. Comments by Col Haber, APSCF/70 Col Haber
  3. Presentation of ICD to Gen Lindeman Col Haber
  4. Comments by SGen Lindeman Gen Lindeman
    - a. Milestone for SPADOC
    - b. Close ties between Plans and Ops
    - c. Look for APSCF help on ICDs with others
- (APSCF approves all ICDs with systems built by SD)
5. Transfer of ICD to J3 (Gen Brandt) Gen Lindeman
  6. Comments by SGen Brandt Gen Brandt
    - a. Milestones for SPADOC (Ops view)
    - b. Importance of SCF link
    - c. Close ties between SD/DCSO and SPADOC
    - d. Acknowledge APSCF AD (Capt Fohlen, former ADCOM)

Ceremony to begin 0915, Briefing scheduled for 0930, Room 2-A-004

Invitees (In addition to XP staff and DoI)

|                 |   |
|-----------------|---|
| Col Warrell     | IPC   |
| SPADOC Staff    | IPCS  |
| Col Strub       | DOP (Approves ICD for ADCOM)                    |
| Lt Col O'Rourke | DOT   |
| Maj Bowers      | DOTS (Chief, Space Defense Operations Division) |
| Lt Col Wilde    | DOE   |
| SPADOC Staff    | DOES  |
